The next installment provides the backdrop to a showcase of the best of the best from **Dissident Records**. The highlight of which being the first ever live **Invincible Scum** performance, which rest assured, will pulsate with careless abandon. Invincible Scum will be sandwiched somewhere between label boss and much sought after **DJ Andy Blake**, super producer and label cornerstone **Kruton**, and the lush Italo sounds of **Spacelex**. Floor 2 will house another much anticipated, and rare, live performance from Antoni Maovvi who will be supported by Sameheads favourites, **Emil Doesn't Drive** and **DSB**. Throw in a special crowd, and wow, play it again Sam.
